

December 2018

VRS Agreement with RSRCHXCHANGE

VRS (Valuation & Research Specialists) has entered into an agreement with RSRCHXCHANGE (RSRCHX) to contribute equity research data to the latter's platform. Founded in London, UK, but with an international reach, RSRCHX is an aggregator and a virtual library for professional clients such as asset managers and institutional investors, where they can read reports, track consumption and manage access to providers. The RSRCHX platform enables research providers to take greater control over distribution, ensuring regulatory compliance as part of a liquidity hub. Ahead of MiFID II research unbundling, the RSRCHX platform was launched in September 2015 as a regulatory solution, infusing technology into research distribution and consumption. RSRCHX has been named both in the "Financial Times Top 10 Fintechs to Watch" and as a finalist in the "Future of Fintech Awards 2017".

VRS (Valuation & Research Specialists) is an independent firm specializing in equity research covering the European and North American market as well as in macro, currency and commodity research. VRS places strong emphasis on tracking down as well as anticipating value related movements in the global capital and money markets.
